# RADEMAN

Country-rock built on grit, consequence and the hard work of getting back up.

Portrait composite featuring Werner Rademan. AI-generated wardrobe and background directed by RADEMAN. Courtesy of RADEMAN.

**SHORT BIO**

RADEMAN is a South African-born, Australia-based country-rock artist. His music combines direct storytelling, a mature dark baritone and guitar-driven production built around resilience, consequence and the battles people carry privately.

**MAIN BIO**

RADEMAN creates country-rock, outlaw country and southern rock shaped by direct storytelling and emotional weight. Born in South Africa and based in Australia, RADEMAN writes about resilience, internal conflict, accountability and the decision to stand up again when life has taken something from you.

The music moves between restrained, vulnerable verses and full-band choruses. Guitars, low-end weight and a mature dark baritone carry the songs without losing the human detail inside them.

GET BACK UP is RADEMAN’s debut single and the opening chapter of THE WAR INSIDE, a wider body of work about the battles people rarely speak about.

**AT A GLANCE**

**ISRC:** QT6EF2687699

**Distributor:** DistroKid

**Content rating:** Clean

**Release status:** Released independently by RADEMAN

**Genre:** Country rock / outlaw country / southern rock

## SHORT TRACK DESCRIPTION

GET BACK UP is a country-rock song about facing your worst moment, accepting what happened and choosing to rise again.

## THE STORY

GET BACK UP focuses on the moment after life has knocked you down. It does not pretend the damage did not happen. It asks what you do next.

Built around dark baritone vocals, guitar-driven production and a chorus designed to carry emotional weight, the track speaks to listeners who have faced loss, failure, pressure or private struggle.

The song opens THE WAR INSIDE because it establishes the central idea behind the project: strength is not the absence of struggle. It is the decision to keep moving through it.

# THE WAR INSIDE

*A body of work about the battles people carry privately.*

THE WAR INSIDE explores resilience, identity, responsibility, doubt, family, consequence and the choice to keep going. GET BACK UP is the first chapter.

Each release adds another part of the story while retaining the same RADEMAN identity.

- Direct lyrics grounded in lived experience
- Country-rock foundations with southern-rock weight
- Mature storytelling without forced sentiment
- Restrained verses that leave space for the story
- A dark, chest-led baritone vocal identity
- Choruses that expand only when the song has earned it

## THE SOUND

RADEMAN's sound combines gritty electric guitars, acoustic guitar, slide and pedal-steel influence, warm bass, boot-stomp drums and a mature dark baritone. The music can move from intimate, restrained passages to full-band choruses while keeping space, breath and emotional control.

## CORE POSITIONING

Country-rock built on grit, consequence and the hard work of getting back up.

**OLD WORDS. NEW WORLD. SAME TRUTH.**

TRANSPARENT PRODUCTION STATEMENT

GET BACK UP was written and creatively directed by Werner Rademan, known as RADEMAN, and draws on personal life experiences. RADEMAN developed the song structure, contributed a limited vocal reference, directed the style, arrangement and vocal identity, and edited, extended and combined generated versions to create the final track. AI-assisted composition and production through Suno formed part of the studio process. The final lead vocal is AI-generated. The completed mix was selected and approved by RADEMAN and mastered through Mixea.
